

# LUNG CANCER MASTER CLASS

9-10 October 2023

Barcelona

## Course Venue:

Hospital Universitario Vall d'Hebron  
CELLEX CENTER  
C/ Natzaret, 115-117 08035 – Barcelona

# LUNG CANCER MASTER CLASS

9-10 October 2023

Barcelona

Hospital Universitario Vall d'Hebron  
Course Director - Enriqueta Felip

Dear colleagues,

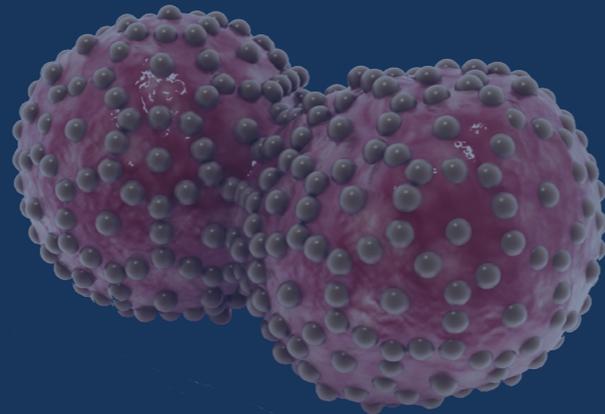

On behalf of Vall d'Hebron Hospital and VHIO we would like to welcome you to Barcelona.

We are very honored by your wish to participate in the Lung Cancer Preceptorship to be held in our city on October 9th & 10th, 2023. The purpose of this meeting is to provide oncologists and pathologists specializing in thoracic and lung tumours with the fundamental information and knowledge in NGS testing vs PCR to detect EGFR exon 20ins mutations. Explain how testing can influence treatment and highlight molecular tumour board implementation and how it works. In addition, the treatment of full scope of targeted therapies such as 3rd gen TKI, immunotherapy, monoclonal antibodies like amivantamab and resistance mechanisms evaluation will be presented. The final objective of this meeting is to bring specialists in this disease closer to excellence in their clinical practice, allowing them to deepen their knowledge of the disease and to create new concepts and opportunities for better diagnosis, treatment and monitoring of the disease. The format will be that of interactive presentations with some time to discuss between the attendants and speakers. Additionally, some clinical cases presented by the speakers and attendants will be discussed. We hope that this brief introduction conveys our interest and objectives, with the intention that you will enjoy an interactive, stimulating, and useful program for your daily practice.

Cordially yours,  
**Enriqueta Felip**

Section in Chief, Medical Oncology Department  
Director Thoracic Oncology and H&N Cancer Unit  
Vall d'Hebron University Hospital  
Vall d'Hebron Institute of Oncology (VHIO)

# LUNG CANCER MASTER CLASS

## Agenda

### Monday 9th, October

- 09:00 - 09:30** Welcome and introduction: presentation 20 min / discussion 10 min  
Dr. Enriqueta Felip
- 09:30 - 10:00** Challenges and strategies for tissue procurement in NSCLC: presentation 20 min / discussion 10 min - Dr Carme Dinares
- 10:00 - 10:30** Implementing NGS testing in the clinic. Pros & Cons vs PCR: presentation 20 min / discussion 10 min - Dr Marta Sese
- 10:30 - 11:00** **Coffee Break**
- 11:00 - 11:30** Multidisciplinary team to benefit patient outcomes and molecular tumour board: presentation 20 min / discussion 10 min  
Dr Patricia Iranzo
- 11:30 - 12:00** EGFR Exon 20 insertions, distinct EGFR mutations in NSCLC with practical application: presentation 20 min / discussion 10 min  
Dr Ana Vivancos
- 12:00 - 13:30** Round-table discussion and clinical experience exchanging: which will be the future of the companion diagnostics platforms? Liquid biopsies? Turn-around times? Requirements of NGS report?  
Dr Marta Sese, Dr Ana Vivancos, Dr Enriqueta Felip/All
- 13:30 - 14:30** **Lunch**
- 14:30 - 15:30** Real world cases, discussion: Dr Enriqueta Felip/All
- 15:30 - 16:00** Visit to Research Unit for Molecular Therapy of Cancer (UITM)

### Tuesday 10th, October

- 09:00 - 09:30** Targetable drugs for exon 20 insertions: presentation 20 min / discussion 10 min - Dr Ana Callejo
- 09:30 - 10:00** Clinical experience of the Center with amivantanab for EGFR+ exon 20 ins.: presentation 20 min / discussion 10 min - Dr Susana Cedres
- 10:00 - 10:30** What do we need to know about resistance mechanisms after 3rd generation EGFR TKI: presentation 20 min / discussion 10 min - Dr Nuria Pardo
- 10:30 - 11:00** **Coffee Break**
- 11:00 - 11:30** Drug development for EGFR mutations: first and second line treatment patterns - what will be the future? presentation 20 min / discussion 10 min - Dr Alejandro Navarro
- 11:30 - 12:00** Clinical experience of the Center with amivantanab/lazertinib for EGFR+ exon 19 del . L858R point mutation : presentation 20 min / discussion 10 min - Dr Raquel Madrenas
- 12:00-12:30** Biomarkers of response in EGFR+ exon20 ins NSCLC patients: presentation 20 min / discussion 10 min - Dr Augusto Valdivia
- 12:30 - 13:30** Real world cases, discussion: Dr Alex Martinez /All
- 13:30 - 13:45** Closing: Dr Enriqueta Felip
- 13:45 - 14:15** Visit to Cellex Building
- 14:15** **Lunch and departures**
