Barcelona 08035

MOLECULAR TESTING IN CHOLANGIOCARCINOMA

Thursday 7th of November 2024

Auditorio Cellex | C/ Natzaret 115-117, Barcelona 08035

Organized by:

MOLECULAR TESTING IN CHOLANGIOCARCINOMA

Coordinator

Dr Ana Vivancos - Group Leader of VHIO's Cancer Genomics Group

- 08:30-09:00** **Cholangiocarcinoma: what do patients and oncologists need**
(Dr Florian Castet)
- 09:00-09:30** **CCA sample management: pre-analytics, how to handle FFPE samples for molecular testing, macrodissection, sample optimization for molecular testing.**
(Dr Paolo Nuciforo)
- 09:30- 10:00** **CC A histopathology: classification, CCA diagnosis, CUP.**
(Dr Mayte Salcedo)
- 10:00-10:30** **Coffee break**
- 10:30-11:45** **Lab tour (pathology) Jose Jiménez: optimal workflow for CCA samples (in groups). Incl FISH**
- 10:30-11:45** **NGS lab tour Ester Castillo: optimal workflow for CCA samples (in groups)**
- 11:45- 12:30** **Molecular profiling in CCA: guidelines, sample requisites, NGS technologies: pros and cons for fusion testing in CCA; FISH**
(Dr Ana Vivancos)

- 12:30- 13:15** **Lunch**
- 13:15-14:00** **Liquid biopsy in CCA: requisites, technologies differences, potential pitfalls; potential role in CCA management (eg: complementarity for tissue, acquired resistance mechanisms).**
(Dr Ana Vivancos)
- 14:00- 15:00** **Molecular profiling Reporting in CCA: value of the molecular tumor board & discussion of cases**
(Dr Mayte Salcedo & Dr Susana Aguilar & Dr Florian Castet)
- 15:00-16:00** **Q&A**
- 16:00-16:15** **Meeting closing and transfer to airport**
