

MOLECULAR TESTING IN CHOLANGIOCARCINOMA

Wednesday 1st and Thursday 2nd of October 2025

Auditorio Cellex
C/ Natzaret 115-117
Barcelona 08035

MOLECULAR TESTING IN CHOLANGIOCARCINOMA

Wednesday 1st and Thursday 2nd of October 2025

Auditorio Cellex | C/ Natzaret 115-117, Barcelona 08035

Organized by:

Collaboration:

MOLECULAR TESTING IN CHOLANGIOCARCINOMA

Wednesday 1st

Midday Arrival to Barcelona airport

18-18:15 Registration

18:15-18:30 Welcome and introduction

18:30-19:00 Cholangiocarcinoma: what do patients and oncologists need
Dra. Teresa Macarulla

20:30- 22:00 Dinner with faculty

Thursday 2nd

08:00-08:30 Welcome coffee

08:30- 09:00 CCA histopathology: classification, CCA diagnosis, CUP.
Dra. Adriana Zucchiatti

09:00-09:30 CCA sample management: pre-analytics, how to handle FFPE samples for molecular testing, macrodissection, sample optimization for molecular testing. Dr. Paolo Nuciforo

09:30-10:00 Coffee break

10:00-11:15 **Lab tour (pathology):** optimal workflow for CCA samples (in groups). José Jiménez

10:00-11:15 **NGS lab tour:** optimal workflow for CCA samples (in groups)
Dra. Ester Castillo

11:15- 12:00 Molecular profiling in CCA: guidelines, sample requisites, NGS technologies: pros and cons for fusion testing in CCA; FISH
Dra. Ester Castillo

12:00-13:00 Lunch

13:00-13:45 Liquid biopsy in CCA: requisites, technologies differences, potential pitfalls; potential role in CCA management (eg: complementarity for tissue, acquired resistance mechanisms). Dra. Ana Vivancos

13:45- 14:30 Molecular profiling Reporting in CCA: value of the molecular tumor board & discussion of cases
Dr. Paolo Nuciforo, Dra. Ester Castillo & Dra. Susana Aguilar

14:30-15:00 Q&A

15:00-15:15 Meeting closing and transfer to airport
